#005	<p><b>Centro fonéticos A-Z diccionario/ pared de palabras:</b> (62 pages - color)  <b>Phonics Centers: A-Z Dictionary/Word Wall</b> Contains 1-3 pages of pictures and words for each letter of the alphabet. For each word, the syllables are color coded for students learning to divide syllables. The words chosen come from my core reading curriculum and words that my students have come up with that correlate with each letter sound. We focus on one letter per week while we practice segmenting and blending them into syllables and individual sounds.</p> <p>I have one word wall on my wall that always stays up and the students use it all year long. I also have 5 copies of the word wall/dictionary in binders so the students can use them as dictionaries and copy words for the letter of the week on their papers, then underlining the syllables of each syllable.</p>	\$60	\$50

#006	<p><b>Tarea: Segmentación por sílabas y sonidos</b> (66 pages: black &amp; White)            Homework Letters for parents: Segmenting Words into Syllables &amp; Sounds            1-Pre-Kinder 2-Kinder</p> <p>Many parents ask me how they can help their student at home. I created these books for the parent to work with their student daily. Even if a parent can't read, he/she can help increase their student's vocabulary by telling their student the name of the picture. They can then help the vocabulary of their student as well. They can assist in segmenting the words into syllables and or sounds depending on the level of their student. The parent will point to the pictures that begin with the initial sound you are working with. Then, reinforce segmenting the words into syllables. The syllables are reinforced with spaces between each syllable. We teach our students to touch their head, shoulders, hips, knees and toes for each additional syllable. We tell our parents, this homework is not for the student to read, but to play a listening game with the parent. This book reinforces what we teach in the classroom in the home. For the advanced student, we tell the parent to practice segmenting the words into sounds as well using each finger for each individual sound.</p>	\$25	\$15
